

CIMBRIA HEID

D evelopment, design, production, assembly and installation of seed and grain processing plants

Seed Processing and Grain Cleaning

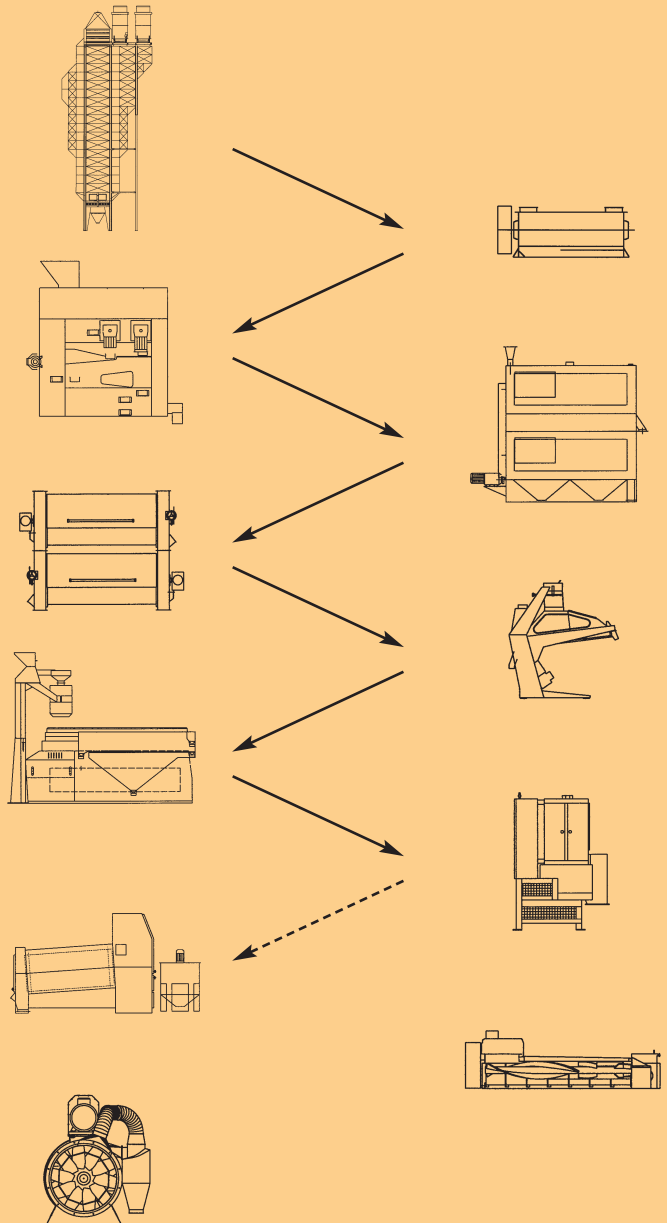

Our product range includes all machines required for the cleaning, drying, sorting, treating, weighing and packing of cereals, pulse, peanuts, green coffee, rice, etc:

- Planning and assembly of turnkey seed processing plants
- Planning, production and assembly of turnkey plants for the industrial treatment and processing of cereals and all types of grains
- Planning, production and assembly of turnkey silo plants

Example: Grain processing plant

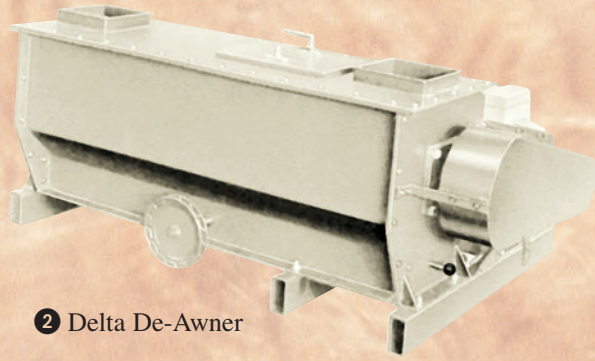

An example of the expertise of CIMBRIA HEID: A complete turnkey seed processing plant for wheat. All machines are designed, produced and maintained within the worldwide operating CIMBRIA Group.

- 1** Drying Plants
Capacity: 1 - 100 t/h
- 2** Delta De-Awners
Capacity: 3 - 60 t/h
- 3** Delta Flat Screen Machines
Capacity: 2 - 360 t/h
- 4** Rotary Screening Cylinders
Capacity: 1 - 30 t/h
- 5** Trieur Batteries
Capacity: 1 and 16 t/h per cylinder
- 6** Dry Stoners
Capacity: 5 - 20 t/h
- 7** Gravity Separators
Capacity: 2 - 15 t/h
- 8** Batch Treaters
Capacity: 1 - 18 t/h
- 9** Seed Treaters
Capacity: 2 - 20 t/h
- 10** Maize Sheller with Delta Cleaner
Capacity: 20 t/h
- 11** Cyclofans
Capacity: 10.000 - 35.000 m³/h

1 Drying Plant

2 Delta De-Awner

3 D

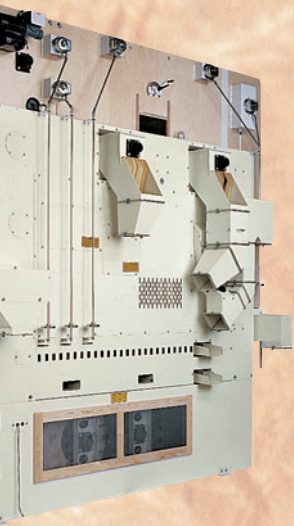

11 Cyclofan

10 Maize Sheller with Delta Cleaner

9 Seed Treater

Delta Flat Screen Machine

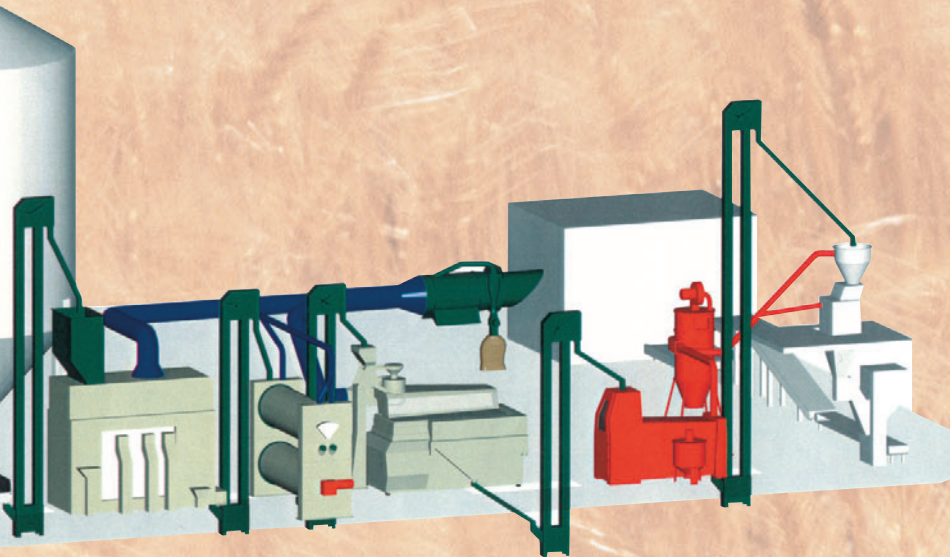

4 Rotary Screening Cylinder

5 Trieur Battery

Seed and Grain Processing Plants and Machinery

- designed, produced and assembled by CIMBRIA HEID

6 Dry Stoner

8 Batch Treater

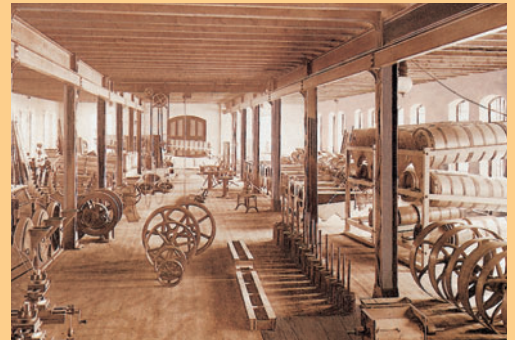

7 Gravity Separator

More than 100 years of experience

Nicolaus Heid (1850-1912)

For more than 100 years our customers have set great store by our quality and experience: Back in 1883, Nicolaus Heid laid the foundations for today's works in Stockerau near Vienna in Austria. This makes CIMBRIA HEID one of the oldest European manufacturers of machines and plants for the processing of seeds and agricultural grain products.

Factory workshop (1905)

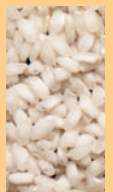

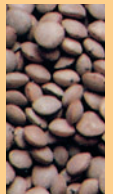

Quality begins with research and development

In order better to understand and solve the problems of our customers we have set up an in-house research laboratory on our company's premises. Here we develop product improvements and test all the machine types we produce. Complete product testing and training facilities allow for excellent training of our staff and experts. In this test environment it is even possible to simulate particular customer requirements and to work out individual answers.

In-house research laboratory

Our plants operate worldwide

A large number of worldwide patents justify high research and development expenditure and indicate the high technological standard of our plants and machines. All over the world the products of CIMBRIA HEID Maschinenfabrik are bought and successfully operated: some 95% of our production is exported. And as a member of the CIMBRIA Group CIMBRIA HEID has access to a global network of highly qualified partners offering permanent support to customers and their plants.

Seed processing plant
